

TEMPEST™

GAS TORCHES AND LANTERNS

FIRE IN MOTION

TEMPEST TORCH™

TEMPEST LANTERN™

This pair of Wall Mounted Tempest Torches provides contemporary exterior lighting for this residential home

Bring the magic to 'The Great Outdoors' with the mesmerizing flames of the Tempest Torch™ and Tempest Lantern™. These dramatic decorative outdoor gas lamps break the barriers of standard gas torch design. Their patented design features an enchanting spiral flame dancing within tempered glass walls. This natural venturi effect of fire in motion is created without the use of electricity or a fan.

This scenic waterscape features two Deck Post Tempest Lanterns

This grand home is adorned with Tempest Lanterns throughout its exterior to create an inviting ambiance

The Tempest Torch™ and Tempest Lantern™ feature a wide array of applications and display possibilities for outdoor living and entertainment spaces, including decks, patios, pools, gardens, walkways, entryways, restaurants, storefronts, and more!

The signature spiraling flames of the Tempest Torch™ and Tempest Lantern™ reach a height of 17 inches and provide up to 20,000 BTUs. The four-sided, 18-inch tall open-air tempered glass housing is designed to prevent the flame from going out during high winds or rainfall, but includes an automatic gas safety shutoff valve, should the flame ever go out.

The Electronic Ignition model has the miniaturized gas valve built into the post. This model can be wired up to 445 feet from the transformer (See Owner's Manual for details).

The manual light model features an easy access control panel with a Piezo Igniter for easy lighting and high to low flame control.

PICK THE IGNITION SYSTEM THAT BEST MEETS YOUR NEEDS

24V HOT SHOT ELECTRONIC IGNITION MODEL (US Patent Pending)

The All-Weather 24V Hot Shot™ Electronic Ignition system can be used with a light switch, remote control, programmable timer, or wired into a Smart Home system. Available in NG and LP.

PIEZO IGNITER MODEL (Tempest Torch™ only)

This manual light model works with a built-in Piezo Igniter and easy access control panel. Available in NG and LP.

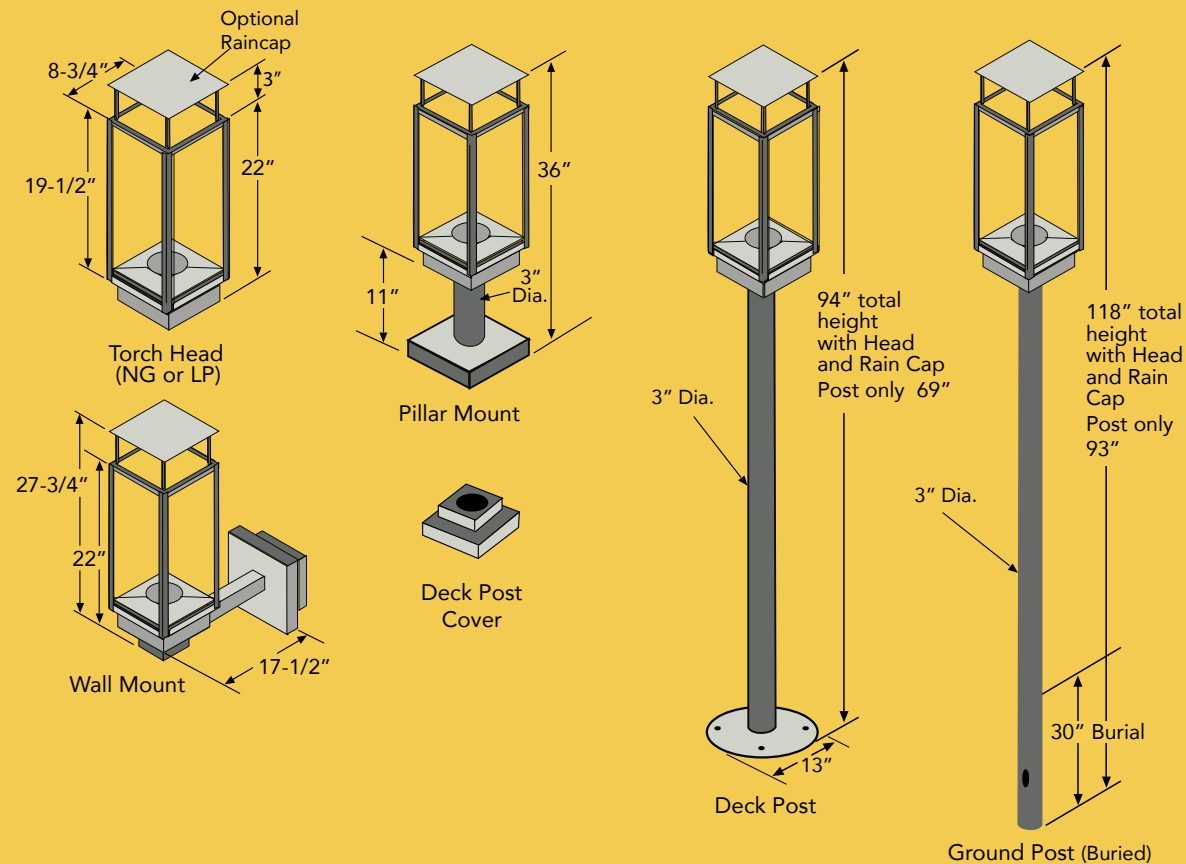

This backyard patio is beautifully lit with two Deck Post Tempest Torches

FEATURES YOU ARE GOING TO LOVE

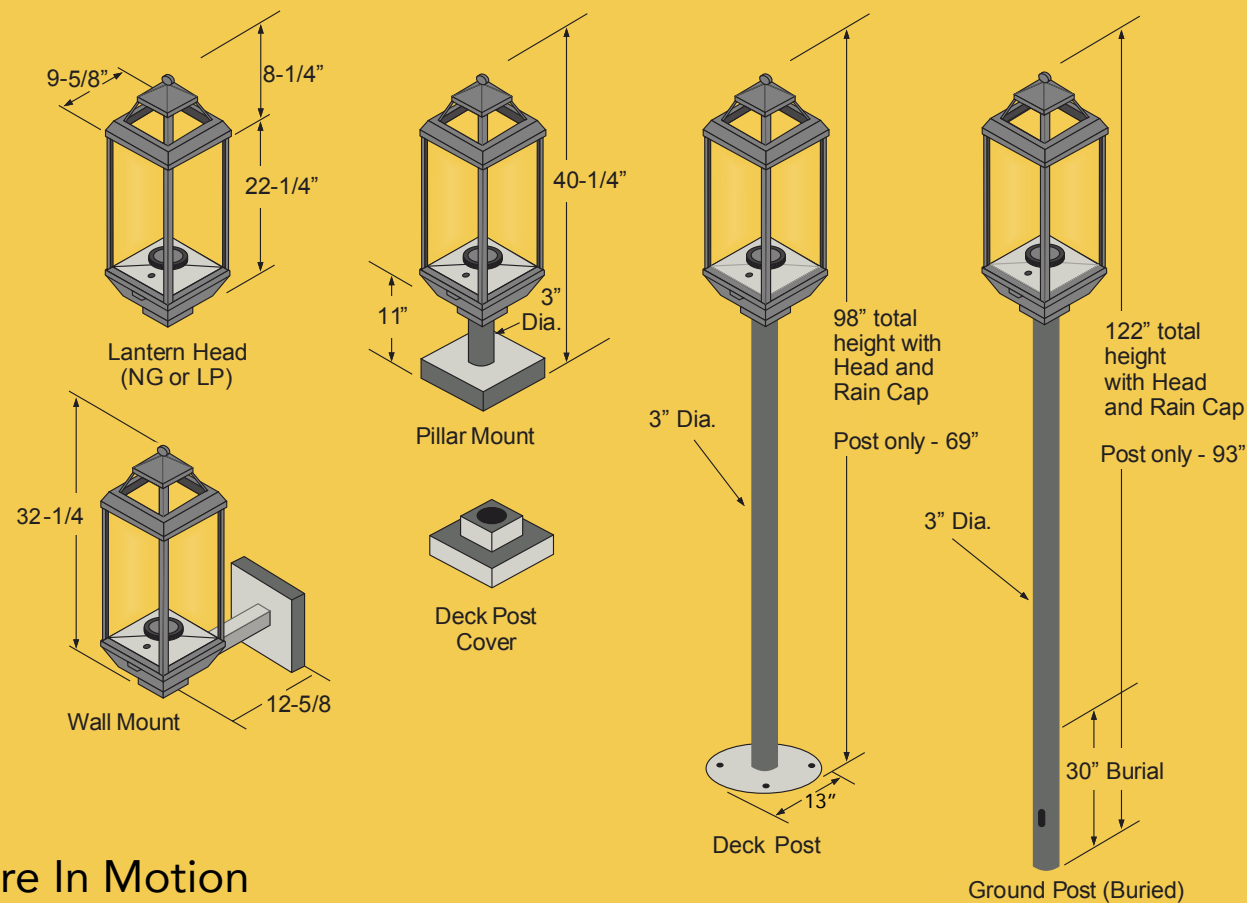

- The Tempest Torch™ and Tempest Lantern™ can be installed in four different applications:
 - Ground Post
 - Deck Post
 - Pillar Mount
 - Wall Mount
- Automatic gas shutoff for added safety if the flame ever goes out.
- Tempered glass panels are easy to remove for cleaning and service.
- The Tempest Torch™ features a durable stainless steel frame and burner.
- The Tempest Lantern™ features a durable, high temperature black powder coated frame and cap.
- Removable rain cap included (*Tempest Torch™ only*)
- Install up to six torches or lanterns on a single transformer, and up to five transformers on a single 120 volt 15 amp circuit. This can give you up to 30 torches or lanterns on a single circuit! (*Also works with any combination of Fire Garden™ Outdoor Firepit Burners or Complete Firepits*)

20K Tempest Torch™

20K Tempest Lantern™

These four Pillar Mounted Tempest Torches elevate this deck into the ultimate outdoor entertainment space
